Article 2: Designing

The students and/or faculty of St. Joseph dental college will present the concept of the new equipment to the proprietor of the Robo coupler pvt ltd. The proprietor in turn will suggest modification or change in the design of the equipment. The parties of both institutions will collaborate efficiently in discussing design, material used for manufacturing, the electronic items required, and any software-based system to operate the equipment.

Article 3: Manufacturing-

The Robo coupler pvt Ltd will provide a timeline for completing the manufacturing of the equipment. The operating manual of the equipment will be discussed in detail. Robo coupler pvt Ltd also provide support in the maintenance of the equipment.

Article 4: Finance:

The cost for the manufacturing of the equipment will be entirely taken care of by the student and/or faculty of St. Joseph dental college. The Robo coupler pvt ltd will consider concession for manufacturing as part of the research and/or innovation guidelines set by both the institutions. The cost for the maintenance of the equipment will also be given to the student and/or faculty of St. Joseph dental college.

Article 5: Student training program

The Robo coupler pvt Ltd will participate in seminar/workshop conducted by SJDC in the field of electronics, artificial intelligence, robotics etc. The Robo coupler pvt Ltd will provide information regarding the application of robotics and/or artificial intelligence in the field of health sciences.

Article 6 – Duration :

This agreement will become effective upon the date of signature by both parties. It shall remain valid for period of five years from the date of last signature, with the understanding that it may be modified by written mutual consent of both parties. The agreement may be terminated by either party with advance written notice of at least 30 days. The agreement may be extended by the mutual consent of two parties after the five year period and it must be renewed in writing.
