ROLES AND RESPONSIBILITIES OF DENTAL EDUCATION CELL

- Developing and periodically updating the curriculum to ensure it meets the current trends and advancements in dental education.
- Conducting regular reviews and evaluations of the existing curriculum to ensure it remains relevant and effective.
- Ensuring that the curriculum aligns with the standards set by dental education accreditation bodies.
- Organizing workshops, seminars, and training programs for faculty members to enhance their teaching skills, knowledge, and professional development.
- Providing mentorship to junior faculty members and fostering a culture of continuous learning and improvement.
- Providing academic counseling and support to students to help them achieve their educational goals.
- Promoting and organizing extracurricular activities, including research opportunities, community service, and student clubs related to dental education.
- Implementing a system for continuous quality improvement in dental education by monitoring outcomes and making necessary adjustments.
- Promoting the use of innovative technologies and methodologies in dental education, such as simulation-based learning, e-learning platforms, and problem-based learning.
- Integrating community service with dental education, allowing students to apply their knowledge in real-world settings while serving the community.
